

Welcome to the 60<sup>th</sup> edition of 'AMES High', which aims to keep you, our customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

## B737MAX and NG forward LH monument (Windscreen, Closet, G7)

The forward LH door area particularly requires attention when it comes to retrofitting typical B737NG/MAX cabin layouts.

We are pleased to introduce a modular monument concept specifically designed for this area in both the NG and MAX cabin.

## PSU mounted Cabin Divider for Condor A330neo fleet

Taking a product from its initial conception all the way to its final installation in an aircraft requires a diverse range of skills, expertise, and attention to detail. Our team has recently completed the design, certification, production and successful first installation of a PSU mounted cabin divider for A330neo aircraft.

This highly customized product design offers both a visual distinction between booking classes as well as a unique design element for our client, **Condor Airlines'** brand-new A330neo cabin concept. Over the next few weeks, Condor's entire A330neo fleet will be fitted with these new dividers.

## Forecast – AIX Hamburg

We are excited to announce our participation in this year's Aircraft Interiors Expo in Hamburg once again. We look forward to reconnecting with our valued customers, suppliers, and partners from May 28th to 30th. Contact our team for arranging your meeting slot!

**Aircraft Interiors EXPO<sup>®</sup>**  
28 - 30 MAY 2024  
HAMBURG, GERMANY
