

Welcome to the 44<sup>th</sup> edition of 'AMES High', which aims to keep you, our customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

## New Products and Services

After the introduction of various new innovative solutions for our customers, AMES DOA and POA is now able to provide improved lead times for certain products to enable a safe and quick re-entry into service for your commercial operation.

Our shortest lead-times in the industry are further reduced and we are able to provide products like windscreens or partitions, class dividers and curtain rails within a lead time of **only 7 working days**. Due to an improved workflow and increased inventory we can provide those products including all certification requirements within this unmatched timeline. Our Engineering Team in Peggau and Dublin is available to assist with any modification requirements you might have on short notice.

## AMES Contacts

We continuously support our customers with highest flexibility under those challenging conditions.

It is always AMES' intention to stay in close contact and regular communication with our valued customers, especially in times like we face at the moment.

**Please feel free to get in touch with us ([services@ames.co.at](mailto:services@ames.co.at)) and schedule your online meeting with our engineering, production & sales team anytime.**

For more information please contact us via e-mail on [services@ames.co.at](mailto:services@ames.co.at), or see our website on [www.ames.aero](http://www.ames.aero)
