

Welcome to the 33rd edition of 'AMES High', which aims to keep customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

New Products and Services

Our Design and Production Team has developed several new smart cabin products, which we are proud to make available to our customers. SeatBlocker in a revolutionary design and providing different marketing options: The fully customizable **Seat Blocker** is used to provide special comfort to premium class passengers in single aisle aircraft. It also provides options for marketing, branding and seasonal advertisements.

It is installed utilizing the standard seat belts and it's simple and adjustable design fits multiple seat types. Further, with the foldable legs, the aluminium made Seat Blocker requires as less as 30mm height for storage when not in use.

New textile PSU Cabin Dividers available in various shapes and designs. Providing a simple and effective separation between different travel classes and additionally offers various marketing & branding options for the airline.

CAMO celebrating 10 Years and 1000 Transitions

Our AMES CAMO received its approval as one of the first EASA Part M CAMOs in 2008. In 2018 we will celebrate 10 years of our AMES CAMO and also the extraordinary achievement of more than 1000 successful transitions! Starting in 2008 with a team of only three, we have grown to a total of 14 highly qualified staff including 8 Review Staff and covering all modern commercial aircraft types. Our customers, who belong to the leading leasing houses in the industry, benefit from our vast experience and stream-lined processes. For our anniversary in May 2018, we shall already have expanded to 16 staff members.

We wish you
a Merry Christmas
and a successful
New Year
