

Welcome to the 43rd edition of 'AMES High', which aims to keep you, our customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

New Products and Services

For the **transport of cargo in the passenger cabin** we offer three different options:

- > EASA STC for Seat Cargo Bags including hardware for B737 and A320 Family and most widebody aircraft, also for passenger and cargo mixed flying.
- > EASA Minor Change for the transport of medical supplies in the cabin.
- > EASA Major Change (STC) for removal of passenger seats to increase the cabin capacity for cargo transport.

Foldable Seat Blockers for more distance (middle seat blocking).

Fast cabin modifications for a **low-density cabin conversion**.

Hygiene precautions like additional brackets for disinfection dispensers etc.

AMES DOA and POA are working on several innovative solutions to enable a quick and safe re-entry into service for your commercial operation with a very short lead-time.

AMES at the AIX, Hamburg 12 – 15 April, 2021

As you are all well aware this year's Aircraft Interiors Expo (AIX) in Hamburg has been cancelled following the escalation of COVID-19 in Europe. We hope to see you in 2021 at our AMES-booth.

AMES Contacts

We continuously support our customers with highest flexibility under those quite challenging conditions.

It is always AMES' intention to stay in close contact and regular communication with our valued customers, especially in times like we face at the moment.

Please feel free to get in touch with us (services@ames.co.at) and schedule your online meeting with our engineering, production & sales team anytime.

For more information please contact us via e-mail on services@ames.co.at, or see our website on www.ames.aero
