

Welcome to the 39th edition of 'AMES High', which aims to keep you, our customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

15 years of AMES Engineering and 10 years AMES Production

This year we celebrate the 15th birthday of our AMES Aerospace and Engineering Services GesmbH which was founded in 2004. Starting as a development and engineering service provider, we have held our EN 9100 approval since 2005 and the EASA DOA approval since 2006.

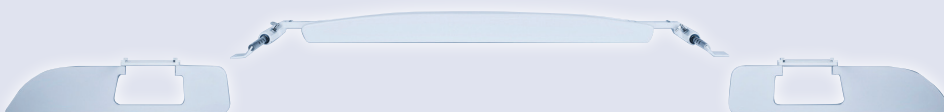

In 2009 we gained our EASA POA Approval and produced and delivered over 1000 shipsets of AMES Cabin products since then.

On 13th of September 2019 we will celebrate these milestones in our AMES-history together with our AMES team, family and friends.

CAMO News

AMES CAMO has received its approval from DCA of Bosnia and Herzegovina, which represents our fifth CAMO approval so far. This will allow us to continue supporting aircraft transition requirements with these efficient authorities

Improved A320 Movable Class Divider

A new development of our A320 family MCD is now available and offers for the centre pelmet rail systems an easier adjustment to the various installation locations including an increased range for this new and simplified hardware.
