

Welcome to the 58th edition of 'AMES High', which aims to keep you, our customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

AMES Certain STC Privilege

Most cabin layout changes touching upon dynamically certified (16g) seats, monuments, exit areas or aisle width can be covered by our in-house STC privilege without further direct involvement of EASA. To learn more about how our in-house STC issuing privilege adds cost & schedule certainty to your project contact our team through services@ames.co.at – a detailed **Technical Information Letter** is available on this subject.

EASA STC for installation of ELTs – Scope Extension

With the extended scope of our EASA AML STC # **10069780** we can now offer the installation of multiple types of portable and survival type, lithium battery powered ELTs.

Examples are
- KANNAD/OROLIA types 406, INTEGRA, ULTIMA
- TECHTEST type PLB
- EXAIL type ELITe

AMES Ireland Roadshow for Leasing Customers

Between 3rd and 6th of October we have again visited many of our Dublin based customers. to get first-hand feedback on our services. We enjoyed many very pleasant discussions on current market issues and regulatory updates. Also we took the opportunity to share our latest developments and achievements in the fields of Part21J / G and CAMO.

New member of our CAMO Team in Ireland

Earlier this month **Cormac Greene** joined our AMES CAMO team. Cormac holds a degree in Mechanical Engineering and will be supporting our excellent CAMO team working out of Dublin. With three CAMO Engineers and two ARC staff our CAMO have continuously extended their privileges in the past two years. The team worked with various authorities and registries and besides EASA also now hold Cayman and Bermudan approvals.
